

Sankofa Smart Kit

- ☞ Holder
- ☞ Liner or Pad
- ☞ Heavy flow support liner
- ☞ Ziploc bag
- ☞ Instructions
- Purse

The menstrual pad or kit consist of two components:

(1) Waterproof “holder” that attaches to underwear and guards against leaks.

(2) Absorbent “liner or pad.” When unfolded, liners look like washcloths rather than pads, so it can be hang outside to dry.

Liners or pad trifold and snap on the holder and can add the extra mini pad for heavy flow for more absorbency.

The Sankofa washable kit is sustainable, hygienic, and easy to wash and dry, and can last longer (2-3 years)

The kit is design with high quality materials, culturally acceptable, with much intelligence and feedback from users.
